Re: [redacted] St  
Auckland  
Phone: [redacted]

Date of Birth: [redacted], Age: 51 y, NHI: [redacted]

Dear [redacted]

I have asked after "Host Dr reports " at WINZ today, - they no longer exist.

To let you know the history of [redacted], as you can see from the enclosed psychiatric reports he suffers from long standing alcoholism -- often "slipping off the wagon" needing intensive counselling at [redacted] which is ongoing. There are anger management issues and he is at present up on charges of a minor assault which he is trying to defend himself, and due to no legal aid this is resulting in a High Court appearance asking after such aid creating stress which we hope doesn't lead to alcohol again. [redacted] is mixed with ongoing depression.

**History**

Ex smoker  
FH: Ischaemic heart dis. <60  
H/O: alcoholism  
H/O: depression  
H/O: hypothyroidism  
H/O: raised blood lipids

Very heavy drinker - >9u/day

mum IHD aged 57

father Ca prostate

**Long Term Medications**

17-Jun-2010 Thyroxine Sodium 50Mcg Tab

SIGS : 1 tabs, Once Daily QTY: 90

17-Jun-2010 Citalopram Hydrobromide 20Mg Tab

SIGS : 2 tabs, Once Daily QTY: 180

He is financially strained and would like to work yet cannot due to the alcohol issues. The financial strains have led to him losing his house and having to move from [redacted] bay.

i attach [redacted] letters of 2008.

He is still a regular attendee.

Yours sincerely

Dr
